Mechanization for conservation agriculture practices

Description

Versatile climate-smart mechanization bundles to facilitate transition to conservation agriculture practices in cereal-based systems, focusing on scale-appropriate optimization of seeders, fertilizers, harvesters and post-harvest equipment for small to medium scale farmers

Innovation Contributors

Contributor	Description
Nele Verhulst	**Email:** N.Verhulst@cgiar.org

Available in	Rwanda, Zimbabwe, Bangladesh, Guatemala, India, Mexico, Nepal.
Agricultural Commodities	Maize, Rice, Wheat, Sorghum/Millet, Other grain.

Institutions

BISA Borlaug Institute for South Asia
