

## Stepwise Approach

Détenteur(s) de la Solution is **IITA Uganda Climate Smart Agriculture (CSA Program** et peut être contacté via **iitaugandacomms@gmail.com**

### Résumé

Stepwise breaks down the recommended best practices that many farmers cannot afford to implement into smaller, more affordable packages that can be implemented in phases.

### Description Technique

The Stepwise Climate Smart Investment Pathway (Stepwise) is an approach developed by the IITA research team in collaboration with partners. Stepwise breaks down the recommended best practices that many farmers cannot afford to implement into smaller, more affordable packages that can be implemented in phases. Stepwise considers specific agro-ecological variables and farmer needs and aspirations to guide incremental investment by the farmer in specific sets of, and timing of practices. This incremental investment is expected to subsequently increase coffee yields in a stepwise manner.

### Utilisation

Informs smallholder farmers on the most efficient incremental investments needed to increase coffee yields and promote improved farmer livelihoods. Increases awareness and knowledge of climate smart agricultural practices thus contributing to increased smallholder farmer resilience. Informs public and private sector on more effective targeting of extension support to smallholder coffee farmers

### Composition

IITA Uganda and partners under the CGIAR Research Program on Climate Change, Agriculture and Food Security (CCAFS) (<https://ccafs.cgiar.org/>) is promoting increased smallholder coffee farmer adoption of Climate Smart Agriculture (CSA) practices in Uganda.

### Moyens d'Application

Stepwise breaks down the recommended best practices that many farmers cannot afford to implement into smaller, more affordable packages that can be implemented in phases.

<b>Agroécologies</b>	Tous les Agroécologies.
<b>Régions</b>	l'Afrique.
<b>Developed in Countries</b>	le Ghana, l'Ouganda.
<b>Available in</b>	le Ghana, l'Ouganda.
<b>Forme(s) de la Solution</b>	Application Numérique, La Gestion.
<b>Application(s) de la Solution</b>	Variété Améliorée, Gestion de la Fertilité des Sols, Contrôle des Maladies, Gestion des Mauvaises Herbes, Lutte contre les Insectes.
<b>Denrées Agricoles</b>	Autres Cultures Agroforestières.
<b>Bénéficiaires Cibles</b>	les Agriculteurs de Petit Échelle, Autres Prestataires, les Agriculteurs Commerciaux.

## Commercialisation

### Catégorie de Commercialisation

Technologie de gestion avec un potentiel commercial limité

### Exigences de Démarrage

Knowledge of the approach

### Coût de Production

Not available

### Segmentation de la Clientèle

Small holder coffee farmers

### Rentabilité Potentielle

Not available

### Exigences de Licence

None

## Solution en tant que Bien Public

public good

### Solution Images
